Water Rate Change Notice

Mallory Valley Utility District places great value on the responsibility to deliver high-quality and reliable water service to our customers. The District has been able to deliver water to our customers at reasonable and cost efficient rates based on our purchased water costs, our volume of water sales and the growth within our service area.

To meet the long term water needs of our present and future customers, the District is investing in several large capital improvement projects to replace and extend our current water system infrastructure. The debt costs, increased depreciation costs and increased operating costs related to these capital improvements necessitate an increase in the District's current revenues.

The new water rate change will occur over two years. The first water rate change will become effective October 1, 2018 and the second on October 1, 2020. The District's rate changes will allow the District to deliver the same high-quality and reliable water service on which our customers depend.

The new **RESIDENTIAL** rates will become effective
October 1, 2018

The rate structure is as follows:

Water Usage	Rate
0-20,000 gallons	\$5.20 per 1,000 gallons
20,000-100,000 gallons	\$6.20 per 1,000 gallons
above 100,000 gallons	\$7.20 per 1,000 gallons

RESIDENTIAL Minimum Bills will become effective
October 1, 2018

Minimum bills are based upon the size of your meter

Meter Size	Rate	Usage Range
¾" meters	\$10.40	0-2,000 gallons
1" meters	\$13.00	0-2,500 gallons
1.5" meters	\$31.20	0-6,000 gallons
meters 2" and up	\$52.00	0-10,000 gallons

The new **RESIDENTIAL** rates will become effective
October 1, 2020

The following examples should help you understand the effect of these rate changes to your monthly water bill:

If you are a small residential user with a ¾" meter and use 2,000 gallons per month, your bill is currently \$10.00 for water service (excluding sales tax). With the revised rate structure, your bill will be \$10.40 effective October 1, 2018 and \$10.60 effective October 1, 2020 for water service (excluding sales tax).

If you are an average residential user and use 7,000 gallons per month, your bill is currently \$35.00 for water service (excluding sales tax). With the revised rate structure, your bill will be \$36.40 effective October 1, 2018 and \$37.10 effective October 1, 2020 for water service (excluding sales tax).

If you are a large residential user or use water for irrigation and use 35,000 gallons per month, your bill is currently \$190.00 for water service (excluding sales tax). With the revised rate structure, your bill will be \$197.00 effective October 1, 2018 and \$200.50 effective October 1, 2020 for water service (excluding sales tax).

If your commercial business uses 50,000 gallons per month then your bill is currently \$280.00 for water service (excluding sales tax). With the revised rate structure, your bill will be \$290.00 effective October 1, 2018 and \$295.00 effective October 1, 2020 for water service (excluding sales tax).

If your commercial business uses 120,000 gallons per month then your bill is currently \$710.00 for water service (excluding sales tax). With the revised rate structure, your bill will be \$741.00 effective October 1, 2018 and \$756.00 effective October 1, 2020 for water service (excluding sales tax).

Sincerely,

Jenny, Clarke, General Manager
