

CITY OF FRANKLIN

INFORMATION REGARDING SOLID WASTE DISPOSAL

The City of Franklin provides solid waste disposal service to customers within the city limits of Franklin. There is a fee charged to the customer to pay for the cost of disposal of solid waste at a properly licensed landfill.

Residential customers pay \$9.00 per month for servicing the first container and \$3.00 for servicing each additional city issued container. This fee is billed on the water utility bill.

It is the customer's responsibility to call the Solid Waste Dept. to receive a roll out container, if there is not one already at the residence. Newly constructed homes will not have a roll out container because they are not supplied to the builders. Therefore, any resident of a newly constructed home must call the Solid Waste Dept. (615-794-1516) and request a container.

Yard waste, green waste and household items are picked up curbside by a separate truck on your regular trash pickup day.

Construction demolition waste is prohibited from collection by the City.

Unauthorized use of containers other than your own is prohibited by law.

The City will furnish one roll out container for each tenant. If you need additional containers, you may purchase them for \$75.00 per container.

Commercial customers have the following options:

- If you have a dumpster that you own or lease from a disposal company, you may request the City of Franklin to service that dumpster for a fee. Dumpsters may also be purchased or leased from the City.
- The City has the right to deny this type of container or number of containers to a customer depending on the location of the business or the area in which the container will be located.
- Commercial customers have the option of contracting with a private firm to dispose of their solid waste.

If you are a commercial customer and you choose for the City of Franklin to provide your disposal service, you must complete an application. Even though you move into a location that already has a rollout container at the site, you still need to complete an application for billing purposes.

In the event that you move, you need to notify the billing office that you are moving and give us a forwarding address to send your final bill.

Bills are mailed approximately the 30th of each month for the month's service. Commercial accounts that have dumpster service are billed a separate bill by the billing department, not included on your water bill.

If you have any questions, the phone numbers are as follows:
