

**To: Residents and Business Owners affected by the Franklin Road Water Transmission Line Project**

***Mallory Valley Utility District  
Franklin Road Water Transmission Line Project***

Mallory Valley Utility District has awarded the bid for the construction of the Franklin Road Water Transmission Line Project. Garney Companies, Inc. will be performing the installation for the District and will attempt to make contact with each resident and business prior to construction to discuss the project. A general work schedule will be posted on the Mallory Valley Utility District website and updated accordingly. You may track the progress by visiting [www.mvud.org](http://www.mvud.org).

As many of you know, the District acquired easements for the construction and the District and its contractor will make every effort to ensure your property is returned to a condition satisfactory to each property owner. We anticipate the construction to begin June 1, 2010 and be completed around August, 2011.

The District appreciates your willingness to work with us and we will endeavor to complete the project in a timely manner.
